

CHAMPIONSHIP EDITION

RC10

2 TIME
WORLD CHAMPION

1/10 OFF-ROAD CATALOG

RC10's have won the 1989/90 IFMAR World Championship and the ROAR Nationals for 1986, '87, '88, and '89.

CHAMPIONSHIP EDITION

RC10

The venerable RC10, the Associated standard-bearer for the past five years, has gained so many new features that it has been given a colorful new package and the special designation CHAMPIONSHIP EDITION.

These revisions, which apply to the #6000, 6010, 6016, and 6020 kits, combine the advanced suspension features of the RC10 Graphite with the vibration damping qualities of the alloy tub chassis to produce the fastest RC10 ever. And this performance comes without any penalty in durability or convenience. The RC10 Championship Edition provides new-comers to the hobby with the completeness and adaptability that made the RC10 the most popular R/C race car in America. Best of all, there is no increase in price.

NEW FEATURES

- Wide track front suspension arms
- Zero-offset front kingpins and stub axles
- Longer travel, high progression front shocks and tower
- Turnbuckle tie rods and links
- 3° rear toe-in blocks
- New 3-piece low profile rims and tires (no gluing required)

STANDARD FEATURES IN ALL CHAMPIONSHIP EDITION KITS

- Heat treated, gold anodized aircraft aluminum chassis tub
- Replaceable gold anodized nose (skid) plate
- Adjustable wheelbase
- Two spring sets, low and high rate
- High volume, precision hydraulic shocks, double O-ring sealed.
- Adjustable, limited-slip ball dif
- Servo saver, linkage and universal servo mounts that fit most radios
- Prelubed oilite bushings (except ballbearing kits)
- Quick-change battery and body mounting hardware
- High strength nylon and glass-filled nylon suspension elements
- Step-by-step assembly instructions, with photos of every step

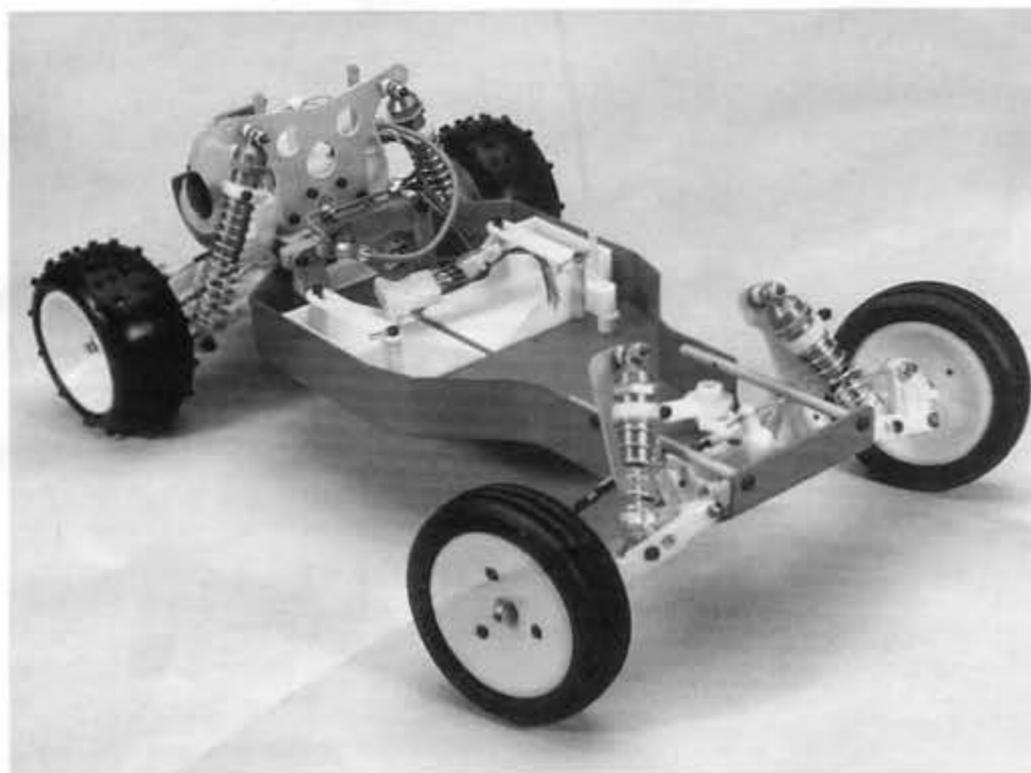

ADDITIONAL FEATURES IN FULL KITS (#6010, 6016, 6020)

- Yokomo stock class 05 motor
- Heavy-duty throttle resistor, wiper, and bypass
- 16 gauge silicone wiring harness, with provision for radio power
- Durable clear Lexan body shell, with driver and adjustable wing
- 6-cell Ni-Cad pack and fast-charge cord (kit #6020 only)
- Precision ball bearing set, 16 bearings total (kit #6016 only)

All kits come packaged in a durable, four-color carton which can serve as a handy parts toolbox at the race track. These cars will work with any radio system, but steering wheel radios with mini-sized servos are preferred.

#6000	Basic kit, less all electrical, less bearings	\$188.00
#6010	Full kit, less battery, less bearings	\$225.00
#6016	Full kit, ball bearings, less battery	\$290.00
#6020	Full kit, with battery pack, less bearings	\$265.00

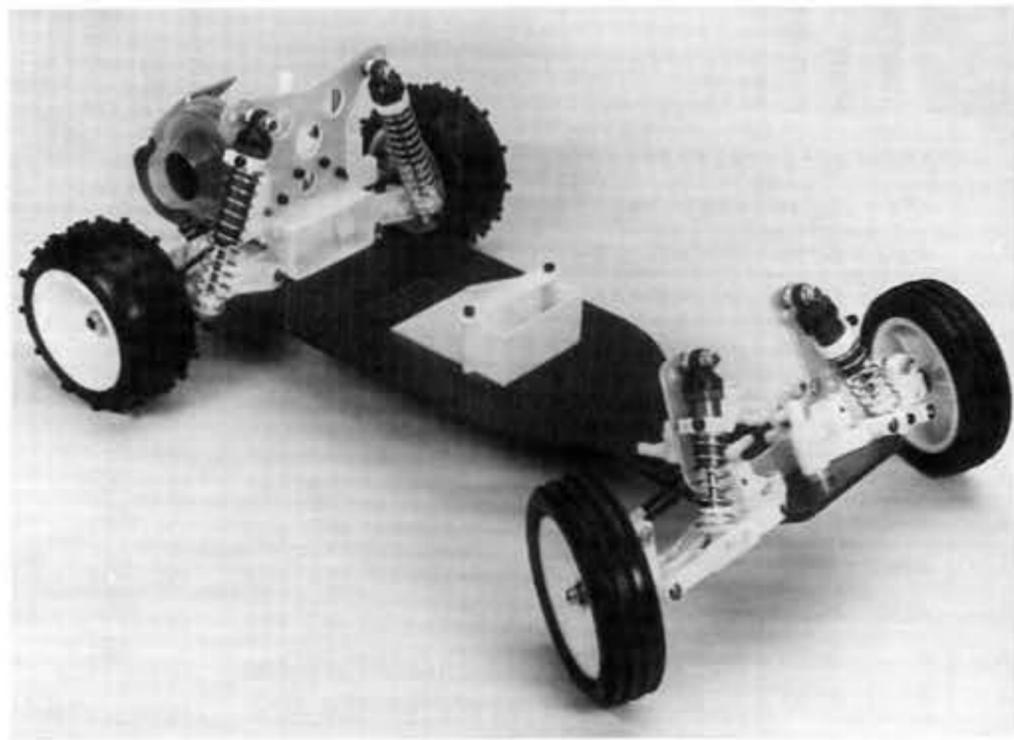

RC10 TEAM CAR!

These outstanding 1/10 off-road race machines pack all the latest Speed Secrets of the Team: **Stealth** transmission; **NEW**, improved, hard anodized, Teflon-coated racing shocks; turn-buckle tie rods and links; wide track front suspension; zero-offset front end; lightweight one-piece wheels; **NEW** Viper buggy body; universal dogbone/stub axles; ball bearings throughout.

#6035 RC10 Team Car kit with black aluminum tub chassis, less battery, motor, radio and speed control, **\$305.00**

#6036 RC10 Team Car kit with graphite chassis, less battery, motor, radio and speed control, **\$345.00**
